## 1.2 m Non-Penetrating Roof Mount

Model 611006302 – 63" X 63"

Model 611006302 has a 2.88" (73 mm) O.D. mast and a 63" x 63" (1.6 m x 1.6 m) base when assembled.

The Andrew Corporation 611006302 commercial non-penetrating roof mount has been specifically designed for our line of antennas from 90 cm to 1.2 m. Mechanically tested and field proven, this mount provides the performance necessary for demanding transmit applications.

The non-penetrating roof mount is designed to be used on a flat roof and has provisions for concrete block ballast. The mount components are pre-galvanized steel with plated, polymer-coated hardware for excellent corrosion resistance.

- For installations up to 125 mph survival.
- Includes rubber roof pads.
- Tray type mount. Use cored or solid blocks.
- Ballast tailored to site requirements.
- UPS shippable single carton packaging.
- Pre-galvanized construction.
- 500 hour salt spray hardware.
