

ViP622 DVR™

Introducing the latest in HD technology from DISH Network.

Record images so deep and vivid they seem three dimensional. This top-of-the-line high-definition receiver and Digital Video Recorder gives you unprecedented picture quality and power over the way you watch TV. Imagine: you can pause and replay live high-definition programming or record it all on your powerful DVR.

Combining state-of-the-art imaging technology with startling life-like Dolby® Digital 5.1 Surround Sound, DISH Network makes true high definition the most anticipated new television technology since color. Experience the widest range of true HD programming on the most advanced satellite television systems available today.

So, what makes DISH Network better TV?

DISH Network is 100% digital satellite television, which means it's the sharpest, clearest and highest-quality television picture you can get. And it's as easy on the wallet as it is on the eyes.

Better TV for you starts here!

Better Technology with Better Features

- Independently watch and record DISH Network programming on two TVs
- Record up to 200 hours of standard-definition, up to 30 hours of high-definition entertainment or a combination of the two*
