

Super Joey™

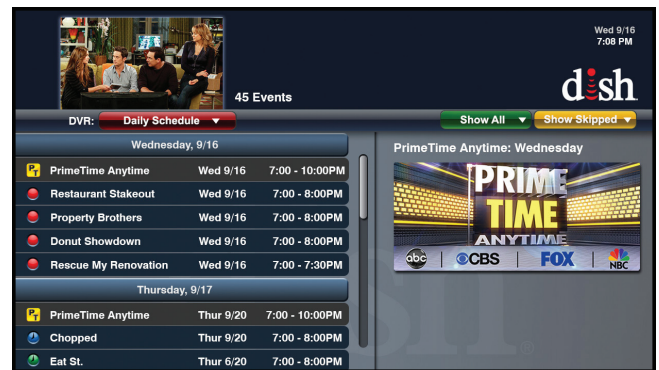

HD MoCA Video Client and WHDVR Tuner Expander

WATCH AND RECORD MORE SHOWS to maximize your Hopper® Whole-Home DVR experience. The Super Joey provides full Joey® functionality with the added benefit of having two additional tuners for WHDVR use.

Features

- Expands a single-Hopper system from three available tuners to five, allowing all WHDVR viewers to record and manage up to eight shows simultaneously¹
- A single coaxial connection receives satellite signals for two internal tuners and interacts using MoCA signals with the Hopper to receive WHDVR services²
- Uses an Integrator device to combine satellite signal and Home Video Network (HVN) MoCA signals onto a single cable feeding the Super Joey while separating the MoCA network to a Hopper receiver
- Includes side panel with full-size smart-card slot
- Broadband Internet access via Hopper Internet Connector or a broadband-connected Hopper receiver
- View high-definition and standard-definition programming
- 9-day electronic program guide (EPG)
- Predictive search and name-based recording
- Record and play back shows via a MoCA-connected Hopper receiver
- Full DVR functionality, including pause and trick modes
- Locate Remote feature
- PrimeTime Anytime™
- AutoHop™

Daily DVR Schedule with Super Joey Tuners Included

- Video-on-Demand (VOD)³
- Blockbuster @Home⁴
- Supports Dolby Digital® 5.1 Surround Sound
- Integrated apps
- Caller ID
- Parental locks
- Software upgradeable via satellite
- Energy Star 3.0®-certified

Notes:

1. Using PrimeTime Anytime.
2. Each shared MoCA network can include only one Super Joey, one Hopper receiver and up to three Joeys (supporting five TVs).
3. Depending on system bandwidth load, VOD downloads may be restricted.
4. Requires subscription.
